We share our knowledge and best practices on company development with the members of our community.

- Incubation and acceleration programs
- Business and science collaboration
- Sharing infrastructure
- Partnerships with the EU innovation development networks
- Value-added services: hackathons, bootcamps]
- Networking with corporates and investors

# FOCUS ON INNOVATION SYNERGY

**One of the main indicators reflecting innovativeness is investment in R&D.**

59.21% of enterprises operating (and reporting data) in Tech-Park Kaunas were engaged in R&D-related activities, and the total share of expenditures in the turnover of enterprises in 2024 amounted to 10.04% of all enterprises' revenues (in 2023 it amounted to 5.48%, and in 2022 it amounted to 7.09% of all enterprises' revenues), which is 24.3 times more than the average of Lithuania's business sector, and 6.8 times more than the average for the EU.

As innovators community, we develop technologies and sustainable relationships with each other and the environment, integrating the United Nations Sustainable Development Goals (SDG17) into our daily activities

Tech-Park Kaunas supports the Sustainable Development Goals

## IT MATTERS! THE ENVIRONMENT & HUMANS

Hello! We are the Tech-Park Kaunas Innovation Community. We develop technologies and sustainable relationships with each other and the environment, integrating the United Nations Sustainable Development Goals (SDG17) into our daily activities.

**Find out about the Sustainable Development Goals we prioritise:**

**3 GOOD HEALTH AND WELL-BEING**

The Park joins initiatives for sustainable development of the health technology industry, organizes **R&D Meetups** for startups and universities' technology transfer centers, developer networking events with corporations - **Innovators Breakfast**.

**5 GENDER EQUALITY**

The Organization supports the gender equality in startup ecosystems: **BSL4Women** - Interning BSRI initiative for the Development of Business Activity of Refugees Women.

**8 DECENT WORK AND ECONOMIC GROWTH**

Business development experts promote innovation through advice, training, and involvement in international and national initiatives: **Digital Rocket LT** cluster activities, **S&BC** - promoting the development of socially responsible business models, **ProDOT** - building a knowledge cluster community, **Positive Workplace** - Counteracting professional burnout by equipping IT managers with professional qualifications in the field of creating friendly working conditions.

**9 INDUSTRY, INNOVATION AND INFRASTRUCTURE**

The Park is creating a more sustainable and user-friendly infrastructure. It is also involved in the following initiatives: **Circular spaces** - promoting circular business principles, **VADUCT** - Interning Europe initiative for valorizing public research to drive technology transfer and commercialization through creation of spin-off, **atTRACTION** - network innovation ecosystems of developing regions (Wielkopolska, Lithuania and Andalusia) with innovation hubs, **13 solutions for public services** - Virtualizing Vocational Training (Development of Apps in virtual and augmented reality for more inclusive learning), **STARTUPOLIS** - establishment of an effective innovation framework through hackathons and incubation services (SEIV system).

**11 SUSTAINABLE CITIES AND COMMUNITIES**

The Park joins initiatives aimed at smart city development: **Urban Tech** - helping to accelerate health tech, green tech, and smart city innovations, **GreenTech 2.0** - green technology cluster activities, **Distance Lab** - Interning BSRI initiative for improving their skills in remote activities, especially distance soft skills (DSO), implementation of mission-based science and innovation programs.

**13 CLIMATE ACTION**

Tech-Park Kaunas team promotes the sorting of household waste, energy efficiency, more sustainable recycling, and the production of new, more environmentally friendly materials.

**17 PARTNERSHIPS FOR THE GOALS**

The Park's entrepreneurial experts cooperate with national and foreign organizations promoting entrepreneurship, state institutions, and universities. Together, they develop and apply more sustainable practices and projects for the creation of a startup ecosystem.

techpark.lt

One of the most striking trends is the increasing focus on dual-use tech that solve real, global problems.

Artificial intelligence is eagerly but responsibly embraced by teams.

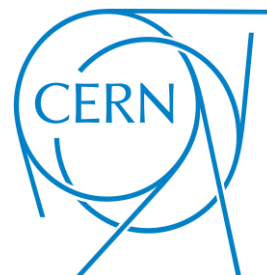

Business angels and venture capital funds are increasingly looking at ideas that not only generate profits but also have a positive impact on society.

As partners of CERN, ESA BIC Lithuania, NATO Defence Technology Accelerator DIANA Test Centre Network, we support the most advanced solutions inspired by science and technology.

Tech-Park Kaunas is also a part of the newly established the Organisation for Defence Innovation in the Nordics (ODIN).

This initiative aims to create a dual-use technology certification and testing mechanism and promote collaboration between the region's armed forces and technology developers.

NATO Defence Technology  
Accelerator DIANA Test Centre

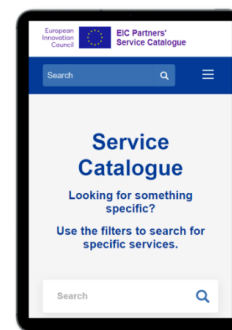

We are members of the International Association of Science Parks and Areas of Innovation (IASP) and participate in four working groups: Women in IASP, ICT, Sustainability, IASP Blockchain.

We are proud to be a new member of a network of organizations offering a set of services, infrastructure or expertise to the 6000+ innovations backed by the EIC.

In 2025 has officially joined EBN (European Business and Innovation Centre Network) – an international network of over 170 organisations across 35+ countries that foster business and innovation. It marks a significant step towards deeper engagement within the European innovation ecosystem.
